CELEBRATING 55 YEARS

Hancock Assocs. promotes Gould to vice president

April 17, 2020 - Construction Design & Engineering

Gregory Gould

Danvers, MA Gregory Gould, P.L.S. has been promoted to vice president at Hancock Associates.

Gould has been with Hancock for over 15 years, elevating to associate in 2017. He has experience working on a wide range of surveying projects from both field and office perspectives. These include ANR and definitive subdivision plans, condominium, existing conditions, aerial photogrammetric control, GPS, boundary surveys, construction layout, MA Land Court Surveys, ALTA/ACSM Land Title Surveys, MassDOT surveys, settlement surveys, easements and lease plans, and FEMA Elevation Certificates.

As vice president, Gould will focus on operations in Hancock's Chelmsford, Marlborough and Princeton offices.

Gould has a Bachelor of Arts in Geography with a concentration in Mapping Sciences from Clark University and holds a certificate in Land Surveying from the University of Massachusetts Lowell. He is a licensed Professional Land Surveyor in Massachusetts and a member of the Massachusetts Association of Land Surveyors and Civil Engineers (MALSCE).

"Greg's tireless work ethic, straightforward approach and commitment to the highest standards, along with a keen sense of business and economics, make him an invaluable asset. He has always strived to go above and beyond to ensure the success of Hancock Associates. We're excited to have him in this expanded role," said president Wayne Jalbert.
