Broadway Renewable Strategies completes 905kW solar installation for Rosebrook Farms

March 22, 2012 - Green Buildings

Broadway Renewable Strategies has completed the design/build 905kW solar installation for Rosebrook Farms. The PV system is a ground-mounted system comprised of 3,124 Canadian Solar 290w panels. The project also included installation of circuit combiner boxes, Satcon inverters, a data acquisition system with reporting capability. Broadway Renewable will furnish solar generated electricity under a Solar Power Purchase Agreement. Broadway's crew of electricians from IBEW Local 223 provided installation.
