DiPrete to redesign and redevelop 12,000 s/f for BankNewport

September 13, 2019 - Rhode Island

Newport, RI BankNewport has teamed up with Sage Environmental, DBVW Architects, and DiPrete Engineering to redesign and redevelop its 12,000 s/f office at Washington Sq.

The team is creating plans to update the ADA accessibility to the front doors, as well as the drive-thru configuration and pedestrian access connections to the abutting roadway. They are also upgrading the current utility services and redesigning the parking lot.

All upgrades have been approved by the city's Historic District Committee in order to maintain the area's historic character.

DiPrete Engineering is providing engineering, permitting, construction administration, and surveying services. The team also designed a new stormwater system to continue the city's efforts in sanitary and storm sewer separation.
