Jewett Construction completes Bolles Chrysler Dodge Jeep Ram in Ellington

December 20, 2019 - Connecticut

Ellington, CT Jewett Construction has completed construction of the expanded Bolles Chrysler Dodge Jeep Ram Dealership.

The completed facility renovation increases the dealership's overall capacity while also improving the already "best-in-class" Bolles Motors experience.

"The addition that we added to this facility really raises the bar for Bolles Motors," said Jon Warner, project manager, Jewett. "Customers will recognize the same level of quality, attention to detail, and service expertise that Bolles Motors has become known for over the years while also enjoying a long list of added amenities."

At 16,000 s/f, the new building area features an expanded showroom, designated brand areas, dedicated quick lube lanes, and enlarged detailing stalls.

Dan Ray, vice president of preconstruction and design said, "Working with this close-knit, respected member of the automotive community has been a special experience for us. The Bolles Motors family took this process on head-first. They put a lot of passion into the process from start to finish, and the results speak for themselves. We look forward to watching their continued growth."

Jewett is a family-owned construction management company with a 47-year history in New England. Jewett specializes in commercial construction projects in the office, manufacturing, retail and automotive sectors.
