RF Walsh Collaborative celebrates opening of new \$17m high school

November 12, 2009 - Spotlights

Community members and local officials celebrate the new Abby Kelley Foster Charter Public High School building and athletic fields during the grand opening ceremony. RF Walsh Collaborative Partners was the project management firm on the \$17 million project and a critical member of the development team that helped transform a Worcester industrial site into a state of the art academic institution and athletic fields.

The new building, designed by Regent Associates, features a fully equipped concert hall for musical performances and school plays, a kitchen, gymnasium, fitness center, 440-seat auditorium, enhanced science and laboratory space, educational common areas and other academic and administration space.
