Executive Roundtable on Jan. 21

January 13, 2010 - Construction Design & Engineering

In November we held an "Roundtable" program for project managers, and it was so successful we're doing it again - this time, for company owners and managers. At these informal programs, there is no presentation, it is just members sitting around a table, discussing the business issues that challenge them most on a day to day basis, and how best to deal with them. Whether the subject is contract terms, payment issues, backlog, scheduling, HR challenges, or workforce problems - sometimes the best solutions come from fellow professionals, who are the real "experts."

Join us at the Westin Hotel on Jan. 21 from 8:00 to 10:00 a.m. to participate in what is sure to be enlightening discussion. From the give and take around the table, you will gain insight into how to make the best possible decisions for your business in these challenging times.

Visit the ASM website to register.
