

FM Facility Maintenance selected by 7-Eleven to manage 6,200 locations

February 02, 2010 - Owners Developers & Managers

7-Eleven, Inc. has selected FM Facility Maintenance to handle all store maintenance for its 6,200 corporate and franchise-owned locations in both the U.S. and Canada. The agreement allows 7-Eleven to centralize maintenance activity in order for stores to operate more efficiently and receive top-quality service, while reducing costs.

"We believe 7-Eleven, our store operators, franchisees and, most importantly, our 6 million daily customers will benefit from our strategic partnership with FM," says Steven Hall, 7-Eleven's vice president of store planning, construction and facilities. "The relationship was forged so our stores could receive more timely and quality resolutions to maintenance problems, lower overall maintenance costs and improve the efficiency of our store equipment that is used to provide products and services to our customers."

FM will be responsible for all 7-Eleven maintenance operations, including pump and tank, refrigeration, plumbing & electrical services, and repair of specialty convenience store equipment such as the iconic Slurpee beverage machines. Additionally, FM's tracking and reporting will identify opportunities for continuous operational and financial improvement

"This is a great opportunity for FM," says the company's president, Jim Reavey. "With a decade of petroleum and convenience store experience servicing other national brands, FM is well equipped to handle 7-Eleven's multi-faceted maintenance needs."

FM also provides facility maintenance services for other top brands, including Outback Steakhouse, ExxonMobil, Goodyear Tires, REI and Dollar General. The addition of 7-Eleven to its client roster makes FM one of the largest facility maintenance companies in North America.

FM Facility Maintenance is a leading provider of facility management for clients with multisite restaurant and retail locations in the U.S.

The company provides an unparalleled level of service in more than 40 trades. FM manages over 30,000 customer locations nationwide, representing more than one million service requests annually. Based in Hartford, Conn., FM is privately held. More information is available at www.fmFacilityMaintenance.com.
