Jewett Const. building new auto showroom

March 03, 2010 - Northern New England

Jewett Construction Co., Inc. is constructing a new showroom for Ford of Londonderry, located at 33 Nashua Rd. The owner demolished the original 60' x 50' showroom to make room for construction to begin on the new showroom. Work, which began in mid-November of 2009, will wrap up in April.

The new showroom will differ from the original, with wide expanses of glass covering the sides and street-facing wall, an Aluminum Composite Panel system, a fully-adhered EPDM roof system, and new exterior masonry. The interior of the showroom will be completely open to the structural roof system, HVAC spiral ductwork, and other mechanical components, and will feature a suspended lighting system.

In addition to the new showroom, work will take place at the existing dealership, including a new fire alarm system and renovations to the existing sales areas, providing access to the showroom.

The Ford of Londonderry dealership will remain open for business during construction, with sales staff working from temporary office trailers onsite until completion of the new showroom.
