Build Boston

March 17, 2010 - Construction Design & Engineering

Build Boston brings together the leading suppliers of building products and services all under one roof exhibiting and demonstrating their newest products for your inspection. In addition, the event provides a nationally renowned array of more than 200 workshops and seminars addressing significant industry issues such as project delivery and project management, marketing and public relations, financial management and firm management, codes, contracts, facility management and the full range of design and construction issues of importance to architects, engineers, contractors and other building industry professionals.
