Acella completes fast-track renovation for Wal-Mart

March 17, 2010 - Construction Design & Engineering

Acella Construction Corp. completed a fast-track renovation project for Wal-Mart Corp.'s Swansea Mall location. The store remained open the entire time, requiring Acella to work closely with Wal-Mart's logistics teams to schedule work and retail deliveries. The 112,000 s/f renovation included new flooring, fixtures, restrooms, interior and exterior signage, as well as renovations to the associate break rooms and office space.

"Acella Construction was excited to have been selected to renovate this retail space. Working for a client like Wal-Mart requires our field and management staff to tightly manage the construction schedule to ensure that we had a successful project for our client." said David Dirubbo, president of Acella Const.
