ASM offers Fleet Management Program

July 15, 2010 - Construction Design & Engineering

ASM is pleased to announce a "Fleet Management Program" as a new member benefit in partnership with Enterprise Fleet Management. The new program offers ASM members the opportunity to reduce the time and cost of managing and maintaining company vehicles, by outsourcing to the experts at Enterprise. Through the Enterprise Program, ASM members will enjoy exclusive discounts on new vehicles and as well as savings on fleet management services such as fuel cards, maintenance programs and accident management. For companies that currently manage vehicles in-house, now is the perfect time to consider how to increase cash flow and profitability through professional fleet management. Contact ASM for more information.
