Essex Builders completes exterior facade renovations for car dealership

August 19, 2010 - Construction Design & Engineering

Essex Builders Corp. is finishing up exterior facade renovations for Central Chrysler Jeep and Dodge located on the Auto-Mile at 56 Providence Hwy. (Rte. 1). Design documents prepared by John R. Perry Architect, Ltd. reflect Chrysler's new brand theme for its North American dealerships.

"The main focus of our mission on this project," said David O'Neil, president of Essex Bldrs. "was to ensure the work was carried out without any interruption or adverse impact to our client's business. By working closely with Peter Catanese (II) of Central Chrysler, we established a construction schedule and phasing plan which ensured customers continued to enjoy the service and courtesy they have come to expect at this location."
