BioEnergy is building 11,000 s/f research center

December 13, 2007 - Front Section

BioEnergy International LLC, a developer of renewable fuels and chemicals, is building a new 11,000 s/f research center.Â The new center will provide the company's base for researching bio-fuels, polymers, and specialty chemicals from renewable resources.Â BioEnergy plans to open two corn-based ethanol production facilities.
