RI USGBC course Sept. 30

August 25, 2010 - Green Buildings

The Rhode Island USGBC chapter will host BD&C 301: Implementing the Building Design + Construction LEED Rating System on Sept. 30, 2010, 8:30am - 5:00pm in the student lounge of the New England Institute of Tech., 2480 Post Rd.

Learn how to apply the LEED BD+C rating systems, using LEED for New Construction as the focus, to a real project by walking through the phases of a typical project and the key decisions that project teams must make, including key stakeholder considerations. Engage with experienced LEED faculty and other participants in interactive activities using case examples that enable you to work hands-on with LEED implementation strategies and rating system tools, including project forms from LEED onlinev3. Emphasis is placed on LEED 209 for New Construction & Major Renovations, but those working on older versions of LEED can apply what they learn. BD+C 251 or BD+C 252 is recommended prior to taking this course.

If you register before Sept. 23 the cost is \$375 for a member and \$450 for a non-member. If you register after Sept. 23 the cost is \$405 for a member and \$500 for a non-member

The course will be taught by Christopher Schaffner of The Green Engineer, LLP.

New England Real Estate Journal - 17 Accord Park Drive #207, Norwell MA 02061 - (781) 878-4540
