Four new companies join GPA in anticipation of Build Boston, Greenbuild, Webinar Series

August 25, 2010 - Green Buildings

The Green Product Association (GPA) is an outgrowth of NEXUS Green Building Resource Center, connecting architects and specifiers with green products, and acting as the go-to place for education, training and networking. Now we are partnering with international trade, industry, and media partners to create a broader platform for manufacturers and distributors to promote their products - a Green Product Association. GPA is providing the only vehicle in the industry to address the most challenging issues of transparency, third party standards and more. We are reaching out to you to join other industry leaders such as Xerox, CBC Flooring, Bostik, Green Product Technologies, Kirei USA, Terrene, Everlast Metals, Market Advantage Plus, Kleertech and others in becoming a GPA Member.

Between the Build Boston Innovation Pavilion, Greenbuild International Conference & Expo, and Green Product Webinar Series, to mention a few activities, we've got a busy call ahead.

We're excited to welcome four new members to the Green Product Association in anticipation of the fall: A.W. Hastings, Atlantic Contract, CPI Daylighting and Werkmaster Ultra Floor Systems.
