Wise Construction completes renovations of Lewis Hall at Bentley College

January 02, 2008 - Front Section

Wise Construction Corporation has completed renovations of Bentley College's Lewis Hall.

The Lewis Hall renovation project included molding, flooring, a new HVAC, as well as electrical and plumbing systems. The project's aim was to replicate the historic Lewis Hall's intricate details, matching its original millwork.

Renovation was performed while the building remained fully occupied and operational.

Wise worked in conjunction with the project design team of R.E. Dinneen Architects & Planners.

"We approach historical projects with a great amount of respect for the building's original design," said John Wise, president of Wise.
