SIOR national conference to be held October 21 -23 in San Antonio

October 07, 2010 - Spotlights

New England SIOR Chapter members are registering to attend this fall's SIOR national conference to be held from Oct. 21-23 at the Grand Hyatt San Antonio, 600 East Market St. With a dramatic design that exemplifies this unique city, Hyatt Regency San Antonio offers warm hospitality, bold colors and exceptional touches creating a luxury San Antonio Riverwalk hotel that is perfect for every guest. The downtown Grand Hyatt urban retreat has a premier location adjacent to the Henry B. Gonzalez Convention Center, HemisFair Park, and the Riverwalk. The hotel's amenities and services will make your experience at the luxurious San Antonio Texas Riverwalk hotel extraordinary.

Shuttle Service from Airport

SIOR has negotiated with Airport Express for a cost-effective solution for your travel from the San Antonio International Airport to the Grand Hyatt. You can book the Express on the SIOR website! The cost is only \$16 one-way | \$28 round-trip! A taxi will cost approximately \$25 each way.

Discounted Airlines

American Airlines is the official air carrier for the 2010 SIOR Fall World Conference. There are several negotiated discounts available. Please call the American meeting services desk at 800-433-1790 or confirm via the web site www.aa.com to make reservations and purchase tickets.

The Fall Convention Schedule

The convention schedule will have an Opening Session, General Session and a Closing Session from Thursday through Saturday. In between there are a number of concurrent events. Below are the topics to date.

Friday General Session - ProLogis Speaker Series: Power Hungry

Speaker: Robert Bryce

Armed with a supertanker-load of fully footnoted facts and a panoply of revealing graphics, Robert Bryce will explain why most of the hype about renewable energy and "green" technology is just that - hype. Using elementary math and basic physics, he shows why renewable sources like wind and solar are not "green" and why they cannot provide the scale of energy that the world demands. He goes on to eviscerate the notion that the U.S. wastes huge amounts of energy. Indeed, the facts show that over the past three decades the U.S. has been among the world's best at reducing its energy intensity, carbon intensity, and per-capita energy use.

Concurrent Educational Breakout Sessions:

1. Doing Real Estate in Mexico: Helping Your Clients Navigate the Mexican Real Estate Markets

9. The U.S. Industrial Landscape

Speaker: James Dieter, SIOR, Cushman & Wakefield

In this uncertain economic climate, everyone is guessing what the future holds for real estate and its affects on the broader economic picture. While the industrial market is not a crystal ball, it is typically the first real estate sector to rebound from a recession. As such, we feel that the trends and conditions of the industrial market can provide valuable insight to the overall direction of the economy. What does the current leasing activity look like? Is there any absorption? Is anybody

building anything these days? Jim Dieter, as he answers these questions and many others at this informative session highlighting the current dynamics of the U.S. industrial landscape.

10. Corporate Services SPB: When Is a Lease Not a Lease?

This presentation will provide an overview of the pending changes to the accounting rules now in process of preparation for publication by the Financial Accounting Standards Board (FASB), and their impact on both lessees and lessors of corporate real estate.
