DPM completes Robeco Investment project

November 18, 2010 - Construction Design & Engineering

Diversified Project Management, Inc. (DPM) has completed an extensive construction and relocation project for Robeco Investment Management.

Robeco relocated its office to 31,210 s/f on the 30th floor at One Beacon St. for which DPM managed the activities of the architect and engineering teams and developed cost data in order to complete test fits and budget data for the initial "stay vs. go" analysis.

Diversified subsequently provided full project management services, including construction administration, FF&E coordination and move planning.

The new space houses approximately 70 positions and consists of a communication room, conference space, kitchen and primarily hard wall offices. In addition, there are multiple trading desks and a "research room" where investors can gather to strategize and complete other work.
