Keypoint Partners manages removal of UPS system at Renaissance Park in Boston

January 03, 2008 - Owners Developers & Managers

The construction management team of KeyPoint Partners, LLC managed the removal and replacement of a vital UPS system at Renaissance Park for client Northeastern University, while assuring no disruption in operations and services for Beth Israel Deaconess Medical Center, according to Brian Kelley, Partner/Controller at the firm.

The intricate project involved removal of the existing PillerUPS system, Kelley says, "Our team fast-tracked the engineering and replacement of a new Primary MGE Galaxy UPS system," he said. "This included all structural, electrical, rigging, and site protection required to maintain BIDMC operations throughout the process."
