Sullivan completes National Passport Center project at Pease Tradeport

February 03, 2011 - Northern New England

Sullivan Construction Inc. completes a new addition in 2010 for Summit Land Development; the Phase 2 addition to the National Passport Center. The addition consists of 25,000 s/f to the existing Phase 1, a 75,000 s/f building which Sullivan completed in 2008.

This addition completes the National Passport Center relocation at Pease Tradeport. The building is completed in time for the increased first quarter 2011 traffic in passport activity and supports up to 1,000 employees as part of the State Department's ongoing effort to improve customer service.
