EMCOR Group awarded contract for renovations at St. Vincent's Medical Center

February 17, 2011 - Connecticut

According to EMCOR Group, Inc., a Fortune 500 leader in mechanical and electrical construction, energy infrastructure and facilities services for a diverse range of businesses, its Tucker Mechanical subsidiary has been awarded a contract for the installation of mechanical systems for a renovation project at St. Vincent's Medical Center.

Tucker Mechanical will install mechanical systems in a 64,500 s/f renovated area on the hospital's main floor. Scope of work in this section will include demolition of existing mechanical systems and installation of new piping, insulation, and sheet metal. Additionally, new plumbing will be installed, including fixtures, as well as sanitary waste and vent, domestic water, and medical gas piping systems. Tucker will also be responsible for installing the fire protection system for the hospital's main floor and part of its second floor. Scope of work will include the removal of the existing sprinkler system and reinstallation of new fire protection systems.
