J.C. Cannistraro awarded MSCA GreenStar designation

February 24, 2011 - Green Buildings

J.C. Cannistraro, LLC has been awarded the Mechanical Service Contractors of America (MSCA) GreenStar designation. The designation recognizes MSCA STAR qualified contractors who have met stringent guidelines for environmental responsibility throughout their companies. MSCA is the nation's leading trade association for air conditioning, heating and refrigeration contractors with over 1,400 members across the United States and Canada.

MSCA GreenStar was created by MSCA to recognize mechanical service contractors who have developed the skills and expertise necessary to deliver energy-efficient, cost-effective indoor environmental solutions to their customers. MSCA has been recognized by the U.S. Green Building Council (USGBC) for its leadership and stewardship of sustainable practices in the HVAC industry.

According to Barbara Dolim, MSCA executive director, MSCA GreenStar helps MSCA members demonstrate their commitment to environmental stewardship. "By attaining MSCA GreenStar status, Cannistraro has demonstrated its dedication to environmental issues by promoting sustainability throughout its entire organization and delivering the very best environmental solutions to its customers. We congratulate Cannistraro as a leader in sustainable service."

Cannistraro has LEED project experience including LEED Platinum projects such as Autodesk AEC headquarters and Artists for Humanity Epicenter. Cannistraro also offers energy benchmarking, comprehensive building performance analysis and green retrofit opportunities to customers. GreenStar applications are reviewed and approved by a third-party, independent company.
