Business Best - Fulcrum Associates

May 05, 2011 - Northern New England

Fulcrum Associates was founded in 1989, Fulcrum grew quickly into a major player in the regional commercial construction market. From data centers and clean rooms to supermarkets, Fulcrum sought out unusual and challenging projects and gained a reputation for delivering highly complex projects under difficult circumstances and aggressive timelines.

After years of bid work, we became believers in construction management as the pre-eminent project delivery method. We quickly revised our accounting, estimating and project management systems to provide the true transparency and collaboration that is essential to succeed as a construction manager.
