What do you do now and what are you planning for the future? Currently, I shoot photography for companies, which in turn use these images on their website and promotional materials. Emphasis is placed on showing their core mission through visual images that portray exactly who they are and what they can offer clients. With an affinity for architecture, I am focusing my skills on visual aesthetics, in the context of a structured architectural environment. Also, I seek to combine interior lighting techniques with a professional approach to exterior architectural photography.

Hobbies: Skiing, biking, travel and N.E. Patriots fan

Favorite book: "Prince of Fire" by Daniel Silva

Favorite movie: "Gran Torino"

Person you admire most (outside of family): Cary Wolinsky, photographer

Keys to success: Determination, passion, giving my best effort, networking and continuing to keep up with the latest technology through education.

If you had to choose another vocation what would it be? NASA astronaut, working on the Hubble space telescope
