EMCOR Group, Inc. supports Breast Cancer screening and awareness

November 03, 2011 - Front Section

EMCOR Group, Inc.'s employees of its Tucker Mechanical subsidiary donned EMCOR Pink Hard Hats, along with employees of Yale Cancer Center. They assembled at Amistad Park in a "Call to Action" in support of Breast Cancer screening and awareness. As part of EMCOR's "Protect Yourself. Get Screened Today." campaign, more than 160 employees from the organizations formed themselves into the shape of a giant human pink ribbon, the international symbol of breast cancer awareness.

An official EMCOR Pink Hard Hat was presented to Thomas Lynch, MD, director of Yale Cancer Center and physician-in-chief of Smilow Cancer Hospital at Yale-New Haven, as well as Anees Chagpar, MD, director of the Breast Center at Smilow Cancer Hospital, by Tucker Mechanical president and CEO, Robert Turner as part of a special ceremony. As part of this ceremony, all EMCOR Tucker Mechanical employees, and general contractors and sub-contractors with which Tucker Mechanical works, removed their regular hard hats and replaced them with EMCOR Pink Hard Hats in a "Call to Action" for millions of women and men to "Protect Yourself. Get Screened Today."

"We're excited to be participating in EMCOR's third consecutive year of conducting this national initiative," said Robert Turner.

"Our employees wear hard hats on a daily basis for personal protection, and we're proud of their commitment to wear an EMCOR Pink Hard Hat throughout October to raise awareness for breast cancer and how to protect yourself by getting screened. As a Company that has built its reputation on being engaged in the concerns of our industry and community, it's gratifying to demonstrate support for breast cancer screening and awareness, standing with our dedicated employees, client, and partners."

Dr. Anees Chagpar said, "Yale Cancer Center is honored to partner with EMCOR Tucker Mechanical to build breast cancer awareness through its 'Protect Yourself.' Campaign. Breast cancer affects over 200,000 women in the U.S. each year, and the importance of screening and early detection of breast cancer cannot be underestimated. EMCOR Tucker Mechanical's effort to increase awareness of breast cancer screening through the Pink Hard Hat initiative is an innovative way to remind women to make an appointment for their annual mammogram."

Among the speakers at the event was breast cancer spokesperson from EMCOR, Neil Nuzie, who brought a personal perspective to the event. For nearly 50 years, Neil has been a strong supporter of breast cancer awareness; he is passionate about EMCOR's Pink Hard Hat Program.

EMCOR Tucker has performed dozens of construction projects over the last 15+ years at Yale-New Haven Medical Center, Yale School of Medicine, and Yale University, including laboratory renovations, energy efficient and infrastructure upgrades, cogeneration projects, and design build

projects. Tucker is currently working on a new plumbing system for the new School of Management Building at Yale University.

About EMCOR Group, Inc.

A Fortune 500 company with estimated 2011 revenues of ~\$5.5B, EMCOR Group, Inc. (NYSE: EME) is a global leader in mechanical and electrical construction, energy infrastructure, and facilities services. A leading provider of critical infrastructure systems, EMCOR gives life to new structures and sustains life in existing ones by its planning, installing, operating, maintaining, and protecting the sophisticated and dynamic systems that create facility environments---such as electrical, mechanical, lighting, air conditioning, heating, security, fire protection, and power generation systems---in virtually every sector of the economy and for a diverse range of businesses, organizations and government. EMCOR represents a rare combination of broad reach with local execution, combining the strength of an industry leader with the knowledge and care of 170 locations. The ~26,000 skilled employees of EMCOR have made the company, in the eyes of leading business publications, amongst the "World's Most Admired" and "Best Managed". EMCOR's diversity---in terms of the services it provides, the industries it serves and the geography it spans---has enabled it to create a stable platform for sustained results. The Company's strong financial position has enabled it to attract and retain among the best local and regional talent, to undertake and complete the most ambitious projects, and to redefine and shape the future of the construction and facilities services industry.
