Engelberth Construction and Cambridge Seven Assoc. renovating Hanover Inn at Dartmouth College

January 05, 2012 - Northern New England

Engelberth Construction, Inc. (ECI) is underway with renovations and an addition to the Hanover Inn at Dartmouth College. The CM project consists of a complete rejuvenation of the historic Inn. The upper floors of adjoining Lang building on Main St. will be converted from office space into 14 guest rooms adding to the Inn's 93 rooms. A 12,000 s/f addition between the Inn and the Hopkins Center will centralize the hotel's meeting space and will include two banquet/function rooms on the ground floor with 7 conference spaces on the lower level of the addition. The Inn's restaurants will also be relocated with the new restaurant being moved to the corner of Main and Wheelock Sts.

Designed by Cambridge Seven Associates work commenced in September and is scheduled for reopening in spring 2012 with final completion of all work in fall 2012. ECI project manager Dick Terk, and ECI superintendent Mike Pierce are leading the team.

They have worked on numerous Dartmouth College facility projects, most recently the transformation of Thayer Hall into the Class of 1953 Dining Commons.
