Leggette, Brashears & Graham, Inc. name Jobmann as senior associate

March 01, 2012 - Front Section

Leggette, Brashears & Graham, Inc. (LBG), a professional groundwater and environmental engineering services firm, has named Paul Jobmann a senior associate.

A Licensed Environmental Professional (LEP) and registered Professional Engineer (PE) in the state of Connecticut, Jobmann is an environmental engineer with considerable experience in the environmental consulting field. His areas of expertise include conducting and managing environmental site assessments at properties in the Connecticut Property Transfer Program and Voluntary Remediation Programs; the design, construction, testing, and operation and maintenance (O&M) of soil and groundwater remediation systems; closure of RCRA storage units; and hydrology.

Jobmann holds an M.S. degree in environmental engineering science and B.S. degrees in electrical engineering and environmental studies from the State University of New York at Buffalo. He is a member of the Environmental Professionals' Organization of Connecticut, the American Society of Civil Engineers and the Connecticut Society of Professional Engineers.

Leggette, Brashears & Graham, Inc. was the first consulting firm in the United States to specialize in groundwater geology. For over half a century, LBG has been a recognized leader in the development and management of groundwater resources as well as environmental and remedial engineering. Headquartered in Shelton, CT, LBG has 20 regional offices throughout the U.S.
