IFMA Boston launches brand new website - www.ifmaboston.org

March 01, 2012 - Owners Developers & Managers

Be one of the first to check out the Brand New IFMA Boston website, which went live on Wednesday February 29th! We've been hard at work creating a website that reflects our professional membership that is also current with the interactive aspects of successful websites.

As part of the new look they've made the website much easier to navigate. They have also added a great deal of content regarding our certification programs and the steps required to sit for these career advancing tests.

They have added a lot of information on the excellent educational opportunities that are offered locally for both full time and part time or master's students.

The calendar is much easier to use and more interactive and will include all of IFMA Boston's events as well as many throughout the A/E/C industry.

You can still post your resume on-line and search our job postings board.

They have many opportunities for you to make the most of your IFMA Boston membership by getting actively involved with the chapter and those opportunities are now included on the new website.

Their most engaging new feature is their Blog which you can be a part of as a guest blogger as well.
