What your firm does now and its plans for the future? Turning Mill Energy LLC principals have over 100 years of combined experience and have completed hundreds of projects in the renewable energy, wireless communications, telecommunications, building design/build and real estate development areas. Staff capabilities include business plan development, CADD design, septic design, electrical, structural, civil, LEED AP, and environmental engineering. We also offer inspection services, project control, construction management and owner representative services. To date we are the only company in Massachusetts that provides a full turnkey solution from project development, design-build services, system commissioning, grant processing SREC aggregation, operations & maintenance and managing partner of equity projects.

Keys to success: Focus on client needs first and everything else will fall in line.

If you had to choose a different profession, what would it be? Restaurant owner
