Consigli Construction completes UMaine Data Center renovation

November 01, 2012 - Northern New England

Consigli Construction Co., Inc.'s Portland, Maine office has completed the renovation of the University of Maine's Neville Hall Data Center, a mission critical facility located at the UMaine campus. UMaine is a research institution in Maine and the only one to have large-scale, pilot-plant capabilities among its research facilities.

The full modernization and renovation of the Neville Hall Data Center includes new electrical and mechanical systems and upgrades, dedicated fire protection and fire alarm systems, exterior lighting, landscaping and paving improvements.

The architect for the project is Harriman Architects + Engineers.
