North Branch Const. celebrating 50th year

March 06, 2008 - Northern New England

North Branch Construction, Inc. is celebrating 50 years of service to the company's clients in 2008. The year long celebration coincides with the company's move to a new corporate headquarters building this spring. President Ken Holmes indicated the move was a result of the company's outgrowing its existing property in Henniker and a desire to be more central to its marketplace. North Branch purchased an existing building located at 76 Old Turnpike Rd. and construction is well underway for an addition and renovations to the building. The project is registered with the US Green Building Council (USGBC) LEED (Leadership in Energy & Environmental Design) Certification Program and is being built for sustainability.

A recent North Branch project include the \$18.9 million award winning Gold Level LEED Certified Tuck Mall Residence Hall for Dartmouth College in Hanover, NH.
