The Napier Law Office and Hannaford & Foster, LLC join Intelligent Office, Boston

February 28, 2013 - Front Section

Intelligent Office - the region's fastest growing professionally staffed virtual office space for mobile executives, small businesses, professional services firms, and independent contractors - has added two immigration law firms as clients, The Napier Law Office and Hannaford & Foster, LLC.

Intelligent Office enables law firms like The Napier Law Office and Hannaford & Foster to operate like a larger firm, without full-time costs. With the flexible use of office space, support staff, and administrative services that Intelligent Office offers, smaller law practices are gaining traction in downtown Boston at a fraction of the traditional cost.

The Napier Law Office was established to assist clients in a variety of cases, including non-immigrant visas, immigrant visas, cancellation of removal, and asylum, as well as divorce, child custody/ support, and prenuptial agreements.

Hannaford & Foster is a full service immigration law firm dedicated to providing effective and timely legal aid to clients in the greater Boston area and beyond.

Attorney Valerie Desiral Napier brings a diverse work and educational background to her practice along with a true passion for advocacy. She established the Napier Law Offices in August 2012 with a primary focus on immigration and family law. "The transition to Intelligent Office has enabled me to focus on fulfilling my clients' needs without having to worry about the daily operations of my practice," said Napier. "With the support of the Intelligent Assistants, all my clients are professionally greeted before I have a conversation with them, enabling me to be better informed and prepared for each meeting and conversation. What I especially like about Intelligent Office is how all of the services are included. Many of the other office suites I was looking at charge separately for each different service."

"We decided to move to Intelligent Office as it was the logical next step in growing our Immigration Law practice. It has provided us with the opportunity to make a very professional impact on our clients while keeping our overhead costs low. We chose Intelligent Office over its competitors because it provides flexibility, convenience, and the same high quality services at a very reasonable price," said attorney Paul Hannaford, founding partner at Foster & Hannaford.
