Eysenbach of R.W. Holmes Realty Co., Inc. completes 52,000 s/f lease to Hamilton Storage Technologies

May 09, 2013 - Front Section

R.W. Holmes Realty Co., Inc. has completed the east coast offices for Hamilton Storage Technologies at 3 Forge Park. The recent move into their new 52,000 s/f facility on 8.3 acres was a consolidation of three locations into one for offices, testing labs, demonstration space and manufacturing area.

A grand opening celebration took place this week thanking the town and project team. The multi-story building was constructed with extensive glass facades, glass lobby ceiling and employee lounge by National Development and their affiliate Cranshaw Construction. Spagnolo Gisness & Assoc. and Studio Savoir were the architects.

The facility will serve as the East Coast headquarters and competence center for Hamilton Storage Technologies, a global leader in the design and manufacture of ultra-low temperature robotic sample management systems for the life science industry.

John Eysenbach, executive vice president was the sole broker in this transaction.

Since 1976 R.W. Holmes Realty has assisted corporations and investor/developers with their local, national, and international real estate needs. R.W. Holmes specializes in property leasing, investment sales, tenant representation, consulting and asset management.
