11-12-2013 - Global Cleantech Meetup to be held November 12-14

August 22, 2013 - Green Buildings

The Global Cleantech Meetup is being held November 12 - 14 at the Seaport World Trade Center. Event organizers include Mass. Clean Energy Center, The Mass. Technology Transfer Center, New England Clean Energy Council and Franhofer USA.

The Meetup is for individuals, companies, and institutions working on clean energy solutions for a more sustainable global economy. Now in its 9th year, the Global Cleantech Meetup focuses on bringing together both innovators and adopters. We showcase clean energy companies, investors, strategic partners, and - differently from other events - major energy and water consumers who are looking to adopt solutions to cut energy use and costs.

To register visit <https://www.regonline.com/Register/Checkin.aspx?EventID=1230518>

Who You'll Meet

- * Major energy consumers will meet providers of innovative clean energy services, products, and technologies.
- * Investors will meet over 100 companies from more than 10 countries, and hear about major energy consumers' needs.
- * Strategic partners will meet technology companies for potential engagement and collaboration.
- * Emerging and leading clean energy companies will meet potential investors, strategic partners, and customers.

Experience the Innovation

- * Planned and unplanned meetings: Use our dedicated area for 1:1 and small group meetings to connect in a more intimate setting.
- * Brief, inspirational and informative talks: Get inspired! Hear from rising and emerging stars of the cleantech world from across the region and nearly a dozen different countries.
- * Innovation Tour: Spend the day visiting open houses at incredible clean energy companies from Kendall Sq. in Cambridge to the Boston Innovation District.
