Callahan, Inc. breaks ground on 200-unit Acadia on the Charles

September 05, 2013 - Owners Developers & Managers

Callahan, Inc. recently broke ground on Acadia on the Charles, a luxury apartment complex. Callahan provided pre-construction services on the Hines project, and continues to provide construction management services.

The four-story, 200-unit building is located on a 4.1 acre site. The M-shaped building will offer high-end amenities such as a resort-style swimming pool, a fitness center, sports lounge and yoga studio. Other offerings include an Internet cafÃ©, library, theatre room, below-ground parking, two landscaped courtyards, outdoor deck with fireplace, and resident storage areas.

Units will be equipped with stone countertops, stainless steel appliances, high-quality cabinets, all-wood floors, and an open kitchen/living area. Some units will feature private balconies or patios overlooking the Charles River.

"The location, high-end features, and views create quality housing opportunities for the city," said Pat Riordan, project manager at Callahan. "This project is a great example of positive community development along the Charles River."

The property design is being managed by CUBE3 Studio and developed by Callahan.

The complex is expected to be fully complete in April 2015, but Hines estimates that the first units will be ready for occupancy as early as November 2014.

Callahan is a full service construction firm which specializes in construction management and preconstruction. The company's experience includes retail, multi-family, education, corporate, industrial, and historic preservation and rehabilitation projects. Callahan has extensive experience in the commercial construction industry and has worked with many large New England developers and property managers.
