IREM President: Strategic initiatives for the chapter

September 05, 2013 - Owners Developers & Managers

The Chapter had another busy month, preparing for our upcoming events and participating in our annual Strategic Planning Committee. This is one of the most important meetings of the year, as it revolves around the chapter's goals and objectives for 2014, as outlined by IREM National's overall plan. We looked at the following strategic principals when determining the direction of the chapter for 2014:

1. Develop opportunities for deeper engagement with industry practitioners at all career levels.
2. Create, curate, produce, and distribute meaningful industry content, trends, and business intelligence utilizing technology tools, subject matter expertise, thought leaders, crowd sourcing, case studies, social networks, and collaborations.
3. Ensure its credentialing programs align with current industry best practices and emerging business trends.
4. Enable and support chapters in providing value to and engagement with the real estate management industry within local and regional markets.
5. Extend and deepen connections with colleges and universities in order to attract students to and prepare them for careers in real estate management.
6. Enrich IREM's brands to increase their recognition and enhance market positioning.
7. Explore vehicles that will create business opportunities for and drive business to IREM's credentialed members and member firms.

The meeting was well attended by board members and a lot of exciting new ideas were discussed. Thank you to all who participated, we are looking forward to more educational opportunities, trainings and social events in 2014!
