JM Coull completes 4,500 s/f New Balance caf  renovation

September 26, 2013 - Retail

JM Coull, Inc. has completed renovations to 4,500 s/f of existing space that has created a new caf  and restroom areas for athletic industry leader New Balance's facility. The upgrades to the former mill building have brought existing areas up to current standards.

JM Coull teamed with architect J. Ferrera Associates to complete the renovations and fit-ups. Since the building was occupied throughout construction, work was executed and installed in such a manner as not to disrupt or adversely affect the company's ongoing operations.

"We are extremely proud to count New Balance among our growing list of repeat customers, as it is great to be associated with firms as well-known and admired as New Balance," said JM Coull president Andrew Coull.
