What your firm does now and its plans for the future? PGBS was created to provide building commissioning and related services to building Owner's and Construction Teams of any project to deliver a building that is constructed to be maintained and operate at the intended level of performance. PGBS also applies its practical knowledge to those buildings that have not lived up to their potential and, with investigation, have helped them performed as required. The plan for the future is to continue to maintain a high level of service so that our clients' buildings continue to provide them a high level of performance.

Hobbies: anything with wings, wheels and a motor

Favorite novel: The Imperial Cruise by James Bradley

Keys to success: work hard

Person(s) you most admire (outside of family) The folks that have served and are serving in our armed forces.

If you had to choose a different profession, what would it be? to own a custom fabrication shop
