USGBC 2013 LEED Project Showcase

October 24, 2013 - Green Buildings

Thank you to all who came out to the first inaugural Massachusetts LEED Project Showcase at Google's LEED Gold Office Space in Cambridge!

The evening was a spectacular success with over 150 guests in attendance to celebrate the 200+ projects in MA that have achieved LEED certification since the beginning of 2012. It was great to see such a bright and passionate group of green building professionals gather together to support the mission of the USGBC to promote the design, construction, and operation of sustainable buildings and communities in Massachusetts. With all of your support, we are moving closer to our goal of making every building a green building within one generation!

Many guests expressed their interest in becoming new members of the chapter!

A big shout-out to all of our wonderful volunteers and board members who contributed their time and energy to make this night such a successful event for the green building community!

This event would not have been possible without our volunteers who helped set up boards and greet guests throughout the night!

Thank you everyone who came out to support the mission of the USGBC and we'll see you next year at our next MA LEED Project Showcase!

Grey Lee, LEED AP, executive director, US Green Building Council-Mass. Chapter
