What do you do now and what are you planning for the future? I head the sustainability department at Edwards and Zuck. E&Z is a full service, international, MEP firm headquartered in N.Y.C. Anything that involves an aspect of sustainability gets my attention, whether it is a LEED building, renewable energy project, or teaching architects about new green technologies, etc. The future of the sustainability department at E&Z is incredibly exciting to think about. As sustainability continues to step into the spotlight of the client's objectives, I'm certain we are going to see the department expand both internally and in the breadth of our project portfolio. I'm eager to see what innovative projects our firm will work on in the future!

If you could invite one person to dinner (living or dead) who would it be and where would you go? It's a duo, F. Scott and Zelda Fitzgerald. We'd go to Silver Lining in TriBeCa for some jazz and cocktails.

What is your dream job? Working in the environmental field has been my passion for as long as I can remember, but if I had to pick something else I'd definitely be a dentist.
