Jewett Automotive Design & Construction completes renovations to RC Olsen Cadillac dealership, Woburn

April 17, 2014 - Front Section

Jewett Automotive Design & Construction, a division of Raymond, NH-based Jewett Construction Company, Inc., has completed renovations to the RC Olsen Cadillac dealership at 201 Cambridge St.

This is the second renovation Jewett Automotive has undertaken at the dealership, having built new offices there in 2011, and includes finish upgrades to modernize the look of the facility in keeping with the new Cadillac corporate image standards. Work included a new overhead door, millwork, flooring, ceilings, lighting and paint. All work was completed either at night or during the day while the dealership was in full operation. Extreme care was taken to isolate work areas to contain dust and noise and do so with little or no inconvenience to staff or customers.

Jewett Automotive specializes in design/build auto dealership facilities, auto dealership additions, auto dealership renovations and auto dealership fit-ups all across New England, completing more than 50 such projects in the last few years. Other repeat clients include such well-known organizations as Commonwealth Motors, the Tulley Automotive Group, the Grappone Automotive Group, the Route 44 family of dealerships, Ford of Londonderry and Watertown Ford.
