The Environmental Business Council of New England Announces Environmental and Energy Industry Winners of the 21st Annual EBEE Awards

April 24, 2014 - Spotlights

The Environmental Business Council of New England (EBC) is pleased to announce the winners of the 21st Annual EBEE Awards. The winners will be honored on May 21st at the 24th Annual Meeting and 21st EBEE Awards Celebration, being held at the Renaissance Waterfront Hotel in Boston. Bob Varney, Executive Vice President at Normandeau Associates, Inc. and former New England EPA Regional Administrator will serve as the emcee for the program.

Each year, the EBC recognizes companies, organizations and individuals for outstanding environmental and energy accomplishments in the promotion of a sustainable, clean environment through the EBEE Awards Celebration. These awards were established by the EBC to encourage companies, government agencies, non-profit organizations, and environmental professionals to serve as models for others to emulate and, in doing so, further the mission and objectives of the EBC.

The following award winners have shown creativity and innovation in the redevelopment industry. Please join the EBC in congratulating these organizations, companies and individuals for their exemplary role in encouraging the growth of the environmental industry in New England.

The James D. P. Farrell Brownfields Project of the Year Award

The Environmental Business Council of New England (EBC) was established in 1990 by environmental and energy company executives who began meeting on a regular basis to exchange ideas and share experiences. The EBC was the first organization in the United States established to support and foster the development of the environmental industry. The goal of the EBC is to enhance business and job growth of both established and emerging environmental and energy businesses. For more information, please contact Ann Gisinger at (617) 505-1818 or ebc@ebcne.org.
