Vision 3 Architects designs 17,500 s/f Boys & Girls Club of Pawtucket

June 12, 2014 - Rhode Island

Vision 3 completed the design for a 17,500 s/f addition to the Boys & Girls Club. The new addition will house the club's teen center, which provides program and homework rooms, a full size gym, fitness center, and games area.

The project also includes new administration offices, as well as a major interior renovation to the 35,000 s/f existing building. The existing teen center will be renovated to house the arts program (dance, music, art), a kitchen, and multi-purpose dining space. The ground breaking ceremony was on March 14. Expected completion date is this fall.
