Bowdoin Construction completes 30,000 s/f fit-out for Thoratec Corp.

July 17, 2014 - Construction Design & Engineering

Bowdoin Construction recently completed a 30,000 s/f fit-out of offices and lab space for Thoratec Corp. The project, designed by Facility Planning & Management, Inc., entailed interior demolition and extensive buildout of office space, an RPA Bio Lab, service lab, conference rooms, restrooms, a cafeteria, and reception area. The space also received all new LED lighting, as well as enhanced mechanical systems with new roof top units. Existing chemical hood systems with acid neutralizers and sinks were relocated and new Hamilton Scientific lab casework was installed.
