Molisse Realty Group brokers lease for The Green Light

August 07, 2014 - Front Section

After the outstanding welcome received at their first location in Pembroke at 808 Washington St., The Green Light is opening their second store at 1179 Ocean St. in Marshfield, a town that David O'Brien, director of The Green Light, considers to be his favorite place on earth.

The lease for the new store was brokered by John Farraher of Molisse Realty Group and the location is ideal due to its close proximity to the downtown area. The Green Light provides its growing number of clients with the most effective cleanse program in the country and at the same time provides a convenient and energizing place for them to refresh with their amazingly nutritious and delicious smoothies and juices.

O'Brien has spent the last eight years developing The Green Light Cleanse and has traveled the country researching the human body and studying how our amazing bodies are able to heal themselves on a cellular level. He has learned not only what nutrients are required for the human body to survive but what nutrients are required for the human body to thrive!

O'Brien would love you to attend one of his complementary, one hour seminars on digestive health and overall wellness. His seminars are always empowering and entertaining. Join the thousands of others who have benefited from The Green Light Cleanse.

The Green Light is taking health and wellness to a whole new level. The friendly, enthusiastic and knowledgeable Green Light team is here to help make your day the best it can be!
