Vision 3 designs 10,600 s/f Cottage at Briarcliffe Gardens

October 20, 2014 - Rhode Island

The Cottage at Briarcliffe Gardens that was designed by Vision 3 Architects is now open. The 10,600 s/f facility serves as a "Memory Care Assisted Living Residence," offering a unique approach to assisted living for persons with Alzheimer's and Dementia. Included in the facility are twenty private resident rooms, two living areas, a dining area, sunroom, and multipurpose room. Construction was by Pariseault Builders of Warwick.

"The New Cottage Micro-Community has its roots in our research based care model that uses environmental design as a platform from which we build the highest level of person centered care possible. It is carefully crafted from the ground up to create an enriching, culturally sensitive and safe assisted living environment. Vision 3 Architects incorporated this innovative model, making the facility an unparalleled Memory Care environment that is revolutionary in its design," said Akshay Talwar, CEO/administrator at Briarcliffe Manor Nursing and Rehabilitation.
