The new location will provide expanded space for over 400 vehicles, more than 30 service bays, and charging stations catering to the electric vehicle market. The site along the Rte. 3 corridor is being developed by notable real estate firm, A.W. Perry, Inc. Integrated Builders will oversee construction management services and will be utilizing a design-build contract with Curtis Architectural Group.

The dealership will also utilize high-end materials and finishes that will be consistent with the distinguished BMW and MINI brands.

"We are very excited about the inclusion of innovative design features such as a second-floor 'jewel box,' a glass enclosure that will highlight eight models from the BMW and MINI lines, visible from Rte. 3 South," said Jay Dacey, president of Integrated Bldrs.
