Cedarholm joins Tighe & Bond's Portsmouth office

November 06, 2014 - Northern New England

David Cedarholm, P.E. has joined Tighe & Bond as a senior project manager.

A civil engineer, Cedarholm brings 26 years of experience in water resources, wastewater, stormwater, and asset management to Tighe & Bond clients. During this time, he has focused on serving New Hampshire municipalities. For more than eight years he served as the engineer for the town of Durham's Public Works Department, and before that collaborated with numerous other municipalities on a wide range of projects as an engineering consultant.

In addition, Cedarholm has overseen a number of innovative and collaborative initiatives involving state and federal agencies. He also has 32 years of construction experience, providing him with a solid understanding of the wide range of environmental challenges New England faces.

"David is a great addition to our expanding Portsmouth office, which has doubled in size over the past three years. He brings a unique perspective to our municipal clients having been a town engineer and a selectman," said David Pinsky, president and CEO of Tighe & Bond. "His leadership, professional credentials, and extensive involvement in the management of the region's water resources, infrastructure, facilities, and community needs will serve our clients well."

Cedarholm earned his master of science in Civil Engineering/Water Resources from the University of New Hampshire. He also holds a bachelor of science in Geology from SUNY New Paltz. Cedarholm is a licensed professional engineer, as well as a licensed subsurface disposal system designer, in New Hampshire.
