Bigelow and Fleming complete 8,000 s/f MetroWest Medical project: \$1.9 million Center for Behavioral Medicine in Framingham

November 20, 2014 - Construction Design & Engineering

Bigelow and Fleming, LLC completed a 8,000 s/f renovation at the MetroWest Medical Center. This \$1.9 million project involved a major overhaul of a previously vacant wing at the medical center. The Center for Behavioral Medicine includes 14 patient beds and will offer a variety of behavioral health services that include partial hospital programs, intensive outpatient programs, traditional outpatient and emergency services.

The project included compressing a 16-week construction schedule into a 9-week fast track project. Careful preparation was critical as the construction was located over the active operating room at MetroWest Medical Center. Other areas of focus included installation of anti-ligature equipment and a highly efficient VRF system.

Shown (from left) are: Amy Raddant of MetroWest Medical Center, Charles Killam of Bigelow and Fleming, Mark Racicot of MetroWest Medical Center, Fred Eriksson and Tom Bigelow of Bigelow and Fleming, Jean Buckley and David Buckley of Buckley & Assoc., Richard Curcuru and Erich Schickle of Metrowest Medical Center.
