Person(s) you most admire (outside of family)? This is a tough one. There are so many great people that do great things and I draw from each one of them and look to and admire them for different things.

If you had to choose a different profession, what would it be? I might go back to auditing or some form of. I love working with numbers. And I loved working with really smart people. Maybe become an attorney? I have always thought about going back to Law School
